

# IMPORTING CHAPTER QUIZZES IN SOCRATIVE

At the end of each chapter of our Georgia Studies digital textbook and within the Teacher Resources section of each Chapter Foreword page, you will find a standards-aligned, selected-response quiz to check student understanding. We have also added each quiz to **Socrative**, which is a classroom app that allows teachers to quickly assess students for immediate insight. Each quiz has a unique Socrative import code. To get started, create a new Socrative account or log into your existing Socrative account. Then, you can import the quizzes using the codes below.
